It is ashame that UBER transportation company that gives people rides for a fee is allowed to come into that state of South Carolina and just whatever they want. Let's just forget about everything every taxi and limousine company in S. C. Had to do to become a legitimate company; to give people a ride for a fee. Its just not right Just another way our local Government just doesn't care about its own that abide by the rules."Just sad".

I am writing from a taxi drivers standpoint against allowing uber into South Carolina . From what I have seen and heard all Uber is trying to do is get around the regulations and fees that you at the ORS have set and from reading about other states that is what uber does why should they be treated any differently than anybody else that seems unfair to the taxi companies that pay the fees and taxes.

Chris C.

A taxi driver

Please do not let urber operate in this state would kill the taxi business. We all have safe and legal vehicles.they don't. All I drivers have sled checks.they dont.we operate with rules to the state and city.they don't .we have proper insurance they dont.
Thank you Richard D&K Taxi

Subject: No to Uber.

Hello, I'm the owner of a small taxi company in the myrtle beach area. My business was doing just fine and I had employed 6 drivers, but since Uber came along I find myself and my drivers struggling for customers. I am not opposed competition, as I am competing against dozens of other companies in the area, but when it comes to Uber it is not an equal fight. They have no regulation to follow, no laws to abide to,

Yellow Cab nor Raiser dictate if I get my day in court . Continue this as schedule and let the people have their say. If I have to take this to court to file for an injunction I will ,nobody will stop me from having my word in court or at this hearing . I urge the PSC to continue with the hearing no matter what Yellow cab or Raiser says we are guaranteed due process under the 14th Amendmeny

I feel anymore delays in this process will be a violation of my Constitutional and one can not apply for something that does not exist or is just made up by theeir own rules
